

Meaningful Movies Olympia AND *Friendly Water of the World*

Invite You To A Showing Of:

SEEDS OF HOPE

A FILM by **Fiona Lloyd-Davies** — Award winning filmmaker and photojournalist.

"Seeds of Hope" is a film about the women of Minova, Congo-DRC, who were raped (often multiple times) in the ongoing war, and have gone about rebuilding their lives. They are now supplying clean water to their community through a project with Friendly Water for the World. It is a story of survival and solidarity.

"A visually stunning and gut-achingly harrowing new film." - *Newsweek Magazine*

Gifts from around the world to support Friendly Water's projects will be available for purchase.
